

The 91st Annual Meeting

**National Plant Board**

8/13—8/17/2017

Savannah, Georgia

I know it is only the middle of Spring but I hope you have August on you mind!

The 2017 National Plant Board Meeting will be held in Savannah, Georgia. In case you are unfamiliar with Savannah, the city was establish in 1733 and is Georgia's oldest city. Savannah has more than 20 squares ([www.savannah.com/savannahs-historic-squares/](http://www.savannah.com/savannahs-historic-squares/)) and the historic district is one of the nation's largest National Historic Landmark Districts. Visit [www.savannah.com](http://www.savannah.com) for more information and activities.

Several airlines fly into Savannah (<http://savannahairport.com/>). Local interstates are 16 and 95. We will be staying at the Hyatt Regency Hotel (<https://savannah.regency.hyatt.com/en/hotel/home.html>). August is usually a little warm and humid in Georgia, so pack accordingly.

In addition to the updates from our partners in PPQ, DHS, NAPPO, NASDA, Canada and Mexico, presentations include 526 permits, detector dogs, and pollinators.

So, save the dates. Additional details and registration information will follow in May.
