SUBJECT: APHIS Expands the Regulated Area for the Asian Citrus Psyllid (*Diaphorina citri*) in Southern California

TO: STATE AND TERRITORY AGRICULTURAL REGULATORY OFFICIALS

The Animal and Plant Health Inspection Service (APHIS) in cooperation with the California Department of Food and Agriculture (CDFA) has expanded the Asian citrus psyllid (ACP) regulated area to include the Borrego Springs area of San Diego County, California. As a result of this action, all of San Diego County is now regulated for ACP.

APHIS is applying safeguarding measures on the interstate movement of regulated articles from the expanded regulated area that are parallel to the intrastate quarantine that has been imposed by CDFA. These actions are necessary in order to prevent the spread of ACP to non-infested areas of the United States. ACP is considered to be present only in some areas in California and subject to official control via State and Federal quarantines.

In California, all of Imperial, Los Angeles, Orange, San Diego, and Ventura counties and portions of Riverside, San Bernardino, and Santa Barbara counties are now regulated for ACP.

APHIS will publish a Notice of this change in the Federal Register and has published a description of the revised ACP regulated areas in California at:

http://www.aphis.usda.gov/plant_health/plant_pest_info/citrus_greening/downloads/pdf_files/national-quarantine-bound.pdf

For additional information regarding this program, you may contact Prakash Hebbar, Citrus Health Response Program, National Coordinator, at Area Code (301) 851-2286 or Lynn Evans-Goldner, National Program Manager, Citrus Disease Programs, at Area Code (301) 851-2228.
