Subject: APHIS Establishes Regulated Area for the Asian Citrus Psyllid (*Diaphorina citri*)
in San Luis Obispo County in California

To: State and Territory Agricultural Regulatory Officials

Effectively immediately, the Animal and Plant Health Inspection Service (APHIS), in cooperation with the California Department of Food and Agriculture (CDFA), is establishing a new 84 square mile regulated area for the Asian citrus psyllid (ACP) in California. APHIS is taking this action because of the detection of ACP in San Luis Obispo County.

APHIS is applying safeguarding measures on the interstate movement of regulated articles from the regulated area in San Luis Obispo County. These measures parallel the intrastate quarantine enacted by CDFA on April 4, 2014. This action is necessary to prevent the spread of ACP to non-infested areas of the United States. ACP is considered present only in some areas in California and is subject to official control via state and federal quarantines. The area under quarantine for ACP in California totals 46,420 square miles.

The specific changes to the regulated areas in California are attached and can also be found at:

http://www.aphis.usda.gov/plant_health/plant_pest_info/citrus_greening/downloads/pdf_files/national-quarantine-bound.pdf

APHIS will publish a notice of this change in the *Federal Register*. For additional information, you may call Citrus Health Response Program National Coordinator Prakash Hebbar at 301-851-2228 or National Policy Manager for Citrus Disease Programs Lynn Evans-Goldner at 301-851-2286.
