

79<sup>th</sup> Annual Meeting  
August 7-11, 2005  
Biloxi, Mississippi

## Proceedings of 2005

*Hosted by the Mississippi Department of Agriculture*

National Plant Board  
79<sup>th</sup> Annual Meeting  
Biloxi, Mississippi  
August 7-11, 2005

**TABLE OF CONTENTS**

**SECTION I**

**General Proceedings**

National Plant Board (NPB) Officers & Board of Directors	1
2005 NPB Committee Assignments	2
NPB Standing Committees	3
NPB Annual Meeting Agenda	5
Roll Call of States	9
2005 NPB Attendees	10
2005 NPB List of Speakers	16
Welcoming Remarks – Lester Spell, Jr., D.V.M., Commissioner	18
NPB Meeting Presentations	19

**SECTION II**

**General Business Meeting & Committee Report**

Minutes of the NPB, Board of Directors' Meeting, August 7, 2005	21
Minutes of the NPB, General Business Meeting, August 10, 2005	24
Audit Committee Report	27
Awards & Service Recognition Committee Report	28
Secretary/Treasurer's Report	29
Nominations Committee Report	35
Policy & Resolutions Committee Report	36
No. 1 – Appreciation of the Mississippi Department of Agriculture and Commerce	37
No. 2 – Soybean Rust Program Oversight	38
No. 3 – United States Department of Homeland Security Customs and Border Protection Vacant Positions at Ports of Entry	40
No. 4 – Wood Boring Pests: Asian Long-Homed Beetle and Emerald Ash Borer	42
No. 5 – Emerging Plant Pests and Pest Detection	45
No. 6 – <i>Phytophthora ramorum</i> (Sudden Oak Death)	47
No. 7 – National Honeybee Survey	49
No. 8 – National Seed Health System Accreditation	51
Minutes of the NPB, Board of Directors' Meeting, August 10, 2005	52
Acknowledgements	54

## 2005 NATIONAL PLANT BOARD OFFICERS

President	Bill Dickerson, NC
Vice-President	Ken Rauscher, MI
Secretary/Treasurer	Scott Pfister, VT

## 2005 NATIONAL PLANT BOARD BOARD OF DIRECTORS

<b>Central Plant Board</b>	Dave Nelson, ND Ken Rauscher, MI – <b>NPB Vice President</b> Esther Chapman, WI <i>Mike Brown, MO (Alternate)</i>
<b>Eastern Plant Board</b>	Carl Schulze, Jr., NJ Charlie Coffman, WV Scott Pfister, VT – <b>NPB Secretary/Treasurer</b> <i>Vicki Wohlers, NE (Alternate)</i>
<b>Southern Plant Board</b>	Gray Haun, TN – <b>NPB Vice President</b> Gene Cross, SC Shashanke Nilahke, TX <i>Mike Evans, GA (Alternate)</i>
<b>Western Plant Board</b>	Mike Cooper, ID Doug Warner, AK Dan Hilburn, OR <i>John Caravetta, AZ (Alternate)</i>

**Interstate Pest Control Compact –**  
Robert J. Balaam, Executive Director

# NPB 2005 ANNUAL MEETING COMMITTEE ASSIGNMENTS

## AUDIT

### Members

**Gene Cross-SPB – Chair**  
Geir Friisoe-CPB

Walt Blosser-EPB  
Carl Schluze-EPB

John Caravetta-WPB

## AWARDS AND SERVICE RECOGNITION

### Members

**Mike Cooper-WPB – Chair**  
Tom Harrison-CPB    Connie Rihard-SPB

Geir Friisoe-CPB  
Carl Shulze-EPB

Frank Fulgham-SPB

### **Assignments**

1. Identify previous members and colleagues that have passed away, and prepare suitable acknowledgements.
2. Identify retirees and propose suitable means of recognition.
3. Determine if there are other awards that should be considered.
4. Report to the NPB membership at the Thursday business meeting

## NOMINATIONS

### Members

**Richard Gaskalla-SPB – Chair**  
Mitch Yergert-WPB

Gary Gibson-EPB

Bob Waltz-CPB

## POLICY AND RESOLUTIONS

### Members

**Gray Haun, TN – Chair**  
Kevin Fridley, SD  
Brad White, WA

Terry Bourgoïn, ME  
Ann Gibbs, ME

Gene Cross, SC  
Carl Schulze, NJ

### **Assignments**

1. Determine which of the 2004 RPB resolutions the NPB should consider approving, edit them as needed, and present them to the membership at the business meeting on Thursday.
2. Determine what new resolutions, if any, are needed, draft them and present them at the business meeting on Thursday.
3. Determine what policy topics, if any, should be addressed by the NPB and present them for action/approval and assignment to the Policy Committee at the business meeting on Thursday.
4. Review and recommend changes as appropriate to NASDA's PLANT HEALTH PROTECTION AND DISEASE CONTROL policy.

## 2005 National Plant Board Standing Committees

COMMITTEE NAME	REGIONAL PLANT BOARD REPRESENTATIVES

# National Plant Board Annual Meeting 2005

## List of Attendees

Allen, Clair A.  
Program Manager  
Utah Department of Agriculture  
Division of Plant Industry  
350 N Redwood Rd  
Salt Lake City, Utah 84114-6500

Allgood, Cindy  
Garden Clubs of Mississippi, Inc.  
1287 Good Hope Rd  
Batesville, Mississippi 38606

Alpe, Butch  
Deputy Director  
MDAC - Bureau of Plant Industry  
P.O. Box 5207  
MS State, Mississippi 39762

Austin, Gay  
Garden Clubs of Mississippi, Inc.  
405 Marion Ave.  
McComb, Mississippi 39648

Balaam, Robert J.  
Executive  
IPCC & USDA-AHPIS-PPQ  
61 Britton Rd.  
Stockton, New Jersey 08559

Barco, Bernetta  
State Plant Health Director  
USDA-APHIS-PPQ  
5657 S. Laburnum Ave.  
Richmond, Virginia 23231

Bayles, Mike  
District Inspector  
Mississippi Dept of Agriculture  
P.O. Box 245  
Prentiss, Mississippi 39474

Bean, Richard  
Maryland Dept of Agriculture  
PP & Wm Section  
50 Harry S. Truman Pkwy  
Annapolis, Maryland 21401

Bell, Philip  
Regional Program Director  
USDA-APHIS-PPQ-AERO  
920 Main Campus Dr. Ste. 200  
Raleigh, North Carolina 27606

Bell, D.V.M., Maurine  
USDA-APHIS-PPQ-VR S  
10107 Baltimore Ave. #4202  
College, Maryland 20740

Bennett, Rick  
National Prog Leader-Plant Health  
USDA-ARS  
5601 Sunnyside Ave, Rm. 4-2230  
Beltsville, Maryland 20705

Bloem, Ken  
USDA-APHIS-PPQ-CPHST  
1730 Varsity Dr., Ste. 400  
Raleigh, North Carolina 27606

Borges, Marcelino  
Director, Field Operations  
U.S. Customs and Border Protol  
U.S. Dept of Homeland Security  
1 La Puntilla St Office Rm. 203  
San Juan, Puerto Rico 00901

Bourgoin, Terry L.  
Director  
Maine Dept of Agriculture  
Division of Plant Industry  
28 Station House  
Augusta, Maine 04333-0028

Brown, Francis D.  
Customs and Border Protection  
109 Shiloh Dr. Ste. 300  
Laredo, Texas 78045

Brown, Michael E.  
State Entomologist  
Missouri Dept of Agriculture  
Plant Industries Division  
P.O. Box 630  
Jefferson City, Missouri 65102

Bryan, Kerry  
Plant Health Director  
USDA-APHIS-PPQ  
6200 Jefferson St. NE Ste. 130  
Albuquerque, New Mexico 87109

Bullard, Carol  
President  
Garden Clubs of Mississippi  
DuPont Crop Protection  
P.O. Box 9  
Pope, Mississippi 38658

Burgess, Lee  
Missouri Dept of Agriculture  
8012 Cadwallader Rd.  
Parkville, Missouri 64152

Burrell, Terri  
Resource Mgmt Staff Director  
APHIS-PPQ  
4700 River Rd. Unit 130  
Riverdale, Maryland 20737

Cahill, Leslie  
American Seed Trade Association  
225 Reinekees Ln. #650  
Alexandria, Virginia 22314

Calcote, Kenneth  
Branch Director USDA Programs  
MDAC - Bureau of Plant Industry  
P.O. Box 5207  
Mississippi State, MS 39762

Callcott, Anne-Marie  
USDA-APHIS-CPHST  
3505 25th Ave.  
Gulfport, Mississippi 39501

Callison, Bill L.  
CANGC  
420 Greenridge Ave.  
Roseville, California 95678

Campbell, Clinton L.  
Pest Survey Specialist  
USDA-APHIS-PPQ  
2604 12th Ct. SW, Ste. B  
Olympia, Washington 98502

Caravetta, G. John  
Arizona Department of Agriculture  
Plant Services Division  
1688 W. Adams  
Phoenix, Arizona 85007

Carpenter, Gary D.  
Assistant Regional Director  
USDA-APHIS-PPQ  
Western Regional Office  
2150 Centre Ave. Bldg. B MS3E10  
Fort Collins, Colorado 80526-8117

Causey, Melinda

STATE OF MISSISSIPPI  
DEPARTMENT OF AGRICULTURE & COMMERCE - BUREAU OF PLANT INDUSTRY  
**LESTER SPELL, JR., D.V.M., COMMISSIONER**  
**MIKE TAGERT, DIRECTOR**

On behalf of the Mississippi Department of Agriculture and Commerce, I would like to welcome you to Mississippi, the Mississippi Gulf Coast, and the 79<sup>th</sup> Annual National Plant Board meeting. We are pleased to have you here and honored to host this year's meeting. Mississippi is called the "Hospitality State" for a reason, and in our way we want to extend to you "The South's Warmest Welcome."

In Mississippi, one out of four people have jobs that are either directly or indirectly related to agriculture. With more than 42,000 farms, agriculture is Mississippi's No. 1 industry and has a value of \$5.5 billion with an approximate \$24 billion impact each year. The nursery trade and green industries provide 16,000 jobs annually in our state. Production nurseries, landscape firms, and the retail green sector also generate an estimated \$760 million each year. Mississippi currently has more than 530 certified nurseries, 700 licensed landscape firms, and 600 certified businesses dealing in retail trade of plants.

I am proud of our Bureau of Plant Industry staff because they have committed a great deal of time and energy to ensure you have a great national meeting. If you have questions or problems, see any of our staff members, who can be recognized wearing a navy blue golf shirt. They will be happy to help you.

Again, welcome to Mississippi! We're proud you are here to experience our state.

Sincerely,

Lester Spell, Jr., D.V.M.  
Commissioner

National Plant Board  
79<sup>th</sup> Annual Meeting  
Biloxi, Mississippi

August 7-11, 2005

NATIONAL PLANT BOARD  
Meeting Presentations

National Plant Board meeting presentations are available on CD upon request from the National Plant Board Secretary/Treasurer. Please refer to the 2005 general meeting agenda for topics and presenter information. In addition, presentations may be available from the individual speakers. Presenter information is available under "List of Speakers" on page 16.

Aurelio Posadas  
Secretary/Treasurer  
National Plant Board

## **Section II**

### **General Business Meeting & Committee Reports**

**National Plant Board  
Board of Directors' Meeting  
August 7, 2005  
Biloxi, Mississippi**

President Bill Dickerson (NC) called the meeting to order at 1:35PM. Vice President Ken Rauscher (MI), Acting Secretary/Treasurer Aurelio Posadas (CA), and the following Regional Plant Board members were also present:

Terry Bourgoin (ME)	Mike Brown (MO)	Mike Cooper (ID)
Dan Hilburn (OR)	Bob Mungari (NY)	Shashank Nilakhe (TX)
Craig Roussel (LA)	Vicki Wohlers (NE)	

Also present were: Harry Fulton (MS) and Laura Vallour, Mississippi Planning Committee.

**Annual Meeting:** The specific agenda for this meeting dealt with the 79th Annual Meeting local arrangements. Harry Fulton (MS) and Laura Vollar reported that there are no changes to the program and any changes in speakers would be announced during the meeting. The Oaks Board Room is available for small meetings, and arrangements can be made for its use at the registration desk. Arrangements for local transportation can also be made through the registration desk. The Hospitality Suite room number was provided, as well as the location of the continental breakfast. Richard Scott will make a CD of the proceedings, which will be provided to Interim Secretary/Treasurer Posadas. One hundred seventy-four attendees are expected.

**Minutes:** Bill Dickerson (NC) requested the date of the last Board of Directors' conference call meeting to complete the minutes and get them approved.

***Phytophthora ramorum* Working Group:** The members of the *Phytophthora ramorum* Working Group, established at the Raleigh Board of Directors' meeting, was provided to Jonathon Jones (PPQ) by Bill Dickerson (NC). They are:

Western PB

Jan Hedburg (OR)  
Aurelio Posadas (CA)  
Brad White (WA)

Central PB

Mike Brown (MO)  
Bob Dahl (WI)  
Tom Harrison (OH)

Eastern PB

Gary Gibson (WV)  
Carl Schulze (NJ)

Southern PB

Mike Evans (GA)  
Richard Gaskella (FL)

Vicki Smith (CT)  
Alt: Terry Bourgojn (ME)

Gray Haun (TN)  
Alt: Craig Roussel (LA)

The first issue to be dealt with by the working group is how to best deal with those plants in the nursery stock shipping trade being found positive with *P. ramorum*. There are a few (five) plants that seem to be the primary culprits.

**Biotechnology Regulatory Services Review:** Bill Dickerson (NC) stated that Cindy Smith, Biotechnology Regulatory Program, would be announcing a review of her program by the NPB. This review, expected to take 90 days, will include a questionnaire to state departments of agriculture. Bill also mentioned that Cindy is interested in a closer working relationship with the NPB, which may include a cooperative agreement providing funding for NPB participation.

**Safeguarding Cooperative Agreement:** AHPIS PPQ would like to continue the Safeguarding Cooperative Agreement with the NPB. This cooperative agreement has paid for NPB president and member travel. Bill Dickerson (NC) is encouraged by the PPQ and BRP cooperative agreements, which will allow for funds to hire an assistant for the NPB President. There is a need for assistance beyond secretarial support, such as report writing and review. A past NPB member has shown an interest in project-by-project involvement. Ken Rauscher (MI) will provide additional information during the Wednesday Board of Directors' meeting.

**CPHST Review:** Bill Dickerson (NC) reported that the CPHST Review, requested by Gordon Gordh, has been well received. Gordh has distributed it to his management staff and to Rick Dunkle. The key actions recommended are being acted on.

**Peer Review:** Bill Dickerson (NC) reported that the Peer Review is moving forward. Steering and review committees have been established for this review, which was initiated by a congressional bill specifically naming the NPB to perform it within a 120-day timeline. The NPB received this assignment at the end of the 120-day request. A work plan has been developed and provided to PPQ and Congress with a timeline of nine months. The review is expected to be completed by June 2006.

**Scott Pfister:** Bill Dickerson (NC) stated that Scott Pfister, ex-NPB Secretary/Treasurer, has completed and provided the 2004 NPB Report for distribution to the NPB membership. Seventy-five copies will be available for distribution. Scott has also provided the Secretary/Treasurer files and books to Bill Dickerson (NC) and Aurelio Posadas (CA).

**Regional Director Vacancies:** Terry Bourgoin (ME) asked about the Regional Director position appointments. Bill Dickerson (NC) stated that he was involved through discussions with Rick Dunkle. Appointments are expected during September 2005.

**Diagnostic Review:** Terry Bourgoin (ME) stated that he was asked by Phil Berger to be part of a Diagnostic Review. Phil also contacted California for involvement in this review. Bill Dickerson (NC) will speak to Phil about procedures for involvement of the NPB.

**Carl Carlson Award:** Mike Brown (MO) brought up an issue dealing with the Carl Carlson Award. The Carl Carlson Award was set up by the Central Plant Board and was meant for field staff or inspectors, yet recent nominees have been from the supervisory and/or administrative ranks. This needs to be clarified for the Nomination Committee. Bill Dickerson (NC) recommended that this issue be brought up, discussed, and a clarification agreed to at the Wednesday general session. Bill asked Bob Mungari (NY) and Mike Brown (MO) to work on this issue for the Wednesday meeting.

**National Certified Seed Potato Program:** Mike Cooper (ID) stated that Cathy Enright would be speaking on the National Certified Seed Potato Program on Tuesday. He would like to have the seed potato states meet with him after that presentation for discussion on this issue, about which states have not been adequately informed. Industry has been working

with PPQ and backs this program. They do not understand that it may not be possible for seed potato states to initiate this program as currently drafted. Idaho has specific legal issues with the current draft. Bill Dickerson (NC) suggested meeting with Cathy Enright to discuss this issue before she made her presentation. An attempt would be made to speak with her at the Hospitality Suite on Sunday night.

**State Plant Health Director Attendance:** Terry Bourgoin (ME) asked if PPQ was restricting attendance of State Plant Health Directors to the NPB Annual Meeting. Bill Dickerson (NC) and Ken Rauscher (MI) replied that PPQ is not restricting their attendance.

**Inconsistent Assumption of Duties:** Bill Dickerson (NC) brought up the issue of inconsistent assumption of duties by newly elected regional plant board officers. Some new officers assume duties upon election at the spring regional plant board meetings and others assume duties after the general business meeting during the Annual NPB Meeting. It was agreed that the regional boards would discuss this issue during the regional meetings the following morning, after which the regional plant board presidents would meet with Ken Rauscher (MI) and finalize an agreement for this issue.

**Biotechnology Regulatory Services Review Meeting:** Ken Rauscher (MI) stated that he wanted to meet with regional board representatives assigned to the Biotechnology Regulatory Services (BRS) Program Review for a review of the process to be used. Therefore, regional boards need to identify representatives.

**National Seed Health System Issue:** Aurelio Posadas (CA) raised the National Seed Health System issue. The issue is that PPQ wants to require state labs to be accredited and charge them. It was unclear if the charge would be for accreditation of the lab or per diagnostic procedure. It was also noted that NSHS' next step might be to require accreditation of states' Phytosanitary field inspections.

**Biotechnology Regulatory Services Training and Inspection:** Mitch Yergert (CO) brought up issues on BRS training and inspection. Specifically, the issues are (1) authority for states to do the inspections, (2) liability, (3) inadequate training, and (4) reimbursement for inspections. It was noted that NASDA had contracted with BRS for states to be trained. NPB needs to communicate with NASDA and review their policy statement on biotechnology.

**NASDA Meeting:** Bill Dickerson (NC) announced the upcoming NASDA meeting would take place at Allentown, Pennsylvania on September 16-21, 2005.

Meeting was adjourned at 3:45 p.m.

Minutes were approved on August 10, 2005.

Submitted by

Aurelio Posadas  
Secretary/Treasurer  
National Plant Board

**National Plant Board  
General Business Meeting  
August 10, 2005  
Biloxi, Mississippi**

President Bill Dickerson (NC) called the meeting to order at 1:15 p.m. Secretary/Treasurer Aurelio Posadas (CA) conducted the roll call. Thirty-four states were reported as being present.

**NPB Reviews Update:** Bill Dickerson (NC) updated the membership on the NPB reviews for this year: Building 580 (completed), CPHST Review (partially completed), the Peer Review (in progress), and Biotechnology Regulatory Services Review (being initiated). There was discussion on the confidentiality of the CPHST Review Report and it not being available to members. Bill offered to provide a copy of the report for review and discuss the CPHST review situation with any member interested.

**Carl Carlson Award Issue:** Mike Brown (MO) brought up a Carl Carlson Award issue. The award's original purpose was to recognize service and/or contribution made at the field level. This is not clear in the award criteria. Nomination packages should clearly reflect contributions or service at the field level. Mike motioned that language of the Carl Carlson Award criteria be clarified to place an emphasis on contribution and/or service at the field level. Gray Haun (TN) seconded the motion, which was passed unanimously.

**Scott Pfister:** Bill Dickerson (NC) discussed sending Scott Pfister a letter of appreciation or something from the NPB. The membership agreed.

**Secretary/Treasurer's Report:** Aurelio Posadas (CA) presented the Secretary/Treasurer's report to the membership (*see attached report*).

**Audit Committee Report:** The Audit committee met with Aurelio on Monday to discuss the budget. The finances and books of the NPB were determined to be in order (*see attached report*). A motion was made by Gene Cross (NC), and second by Craig Roussel (LA), to accept the committee report. The motion was passed unanimously by the membership.

**Awards Committee Report:** Mike Cooper (ID) thanked the members of the awards committee, as well as Geir Friisoe (MN) and Connie Riherd (FL) for their assistance with plaques and certificates. Mike announced that he needs the names of retirees for next year's report, and that it is never too early to start nomination packages for next year (*see attached report*).

**Policy and Resolutions Committee Report:** Gray Haun (TN) presented the membership with eight resolutions and a PSB letter. All of the resolutions and the letter were approved with minor changes (*see attached report*).

**Thank You Letter:** Bill Dickerson (NC) recommended that the NPB send a thank you letter to the sponsors of this year's annual meeting. Membership agreed.

**2007 Annual Meeting:** Lyle Wong (HI) extended an offer, verbally and in writing, during the general business meeting, to host the 2007 NPB Annual Meeting in Hawaii. Craig Roussel (LA) suggested notifying NASDA of the Hawaii meeting to provide advanced notice, as Hawaii may be a travel issue for some states. Mike Cooper (ID) moved to accept Lyle's offer and Richard Gaskalla (FL) seconded the motion, which passed unanimously.

**Nominations Committee Report:** The committee put forth the following nominations:

President – Ken Rauscher (MI)  
Vice President – Gray Haun (TN)  
Secretary/Treasurer – Aurelio Posadas (CA)

Richard Gaskalla (FL) asked if there were any other nominations from the floor. No nominations from the floor were presented. The slate of officers presented was elected unanimously by the membership.

Ken Rauscher (MI) assumed the NPB leadership and presented Bill Dickerson (NC) with a plaque of appreciation.

Bob Dahl (WI) provided information on next year's meeting in Milwaukee, Wisconsin, scheduled for August 13-18, 2006.

President Ken Rauscher (MI) adjourned the meeting at 4:40 p.m.

## AUDIT COMMITTEE REPORT

### 2005 National Plant Board

Audit Committee Report  
 Wednesday, August 10, 2005

The National Plant Board (NPB) Audit Committee, composed of regional secretaries/treasurers or their designees, met on Monday, August 8, 2005 to review NPB financial information as provided by the NPB Secretary/Treasurer. For this meeting, members included John Caravetta, Carl Schulze and Gene Cross. Special thanks should be extended to Aurelio Posadas and Scott Pfister for their assistance during the transition.

Prior to his departure, Scott Pfister made available to all NPB members a copy of the NPB Secretary/Treasurer's Report. In our audit committee meeting, members reviewed the overall report provided by Scott. Additionally, Aurelio Posadas provided the committee with a copy of the preliminary reconciliation report prepared by Bonnie Greenhalgh, Sumtotal Accounting. This

report detailed the assets and liabilities of the NPB. The committee members also had an opportunity to review the checkbook ledger. Pending the end of the NPB fiscal year, a final compilation will be performed by the accountant to facilitate tax filing.

Based on a general review of supporting financial information, the Audit Committee found no major inconsistencies/problems with the NPB Secretary/Treasurer's Report and accountant's report. The committee's recommendation is the NPB accept this report as presented.

Respectfully submitted,  
Gene B. Cross

Michael E. Cooper, Idaho – Chairman

**Awards & Recognition Committee Report**

## Secretary/Treasurer's Report

### Aurelio Posadas

The office of the National Plant Board Secretary/Treasurer continues to be in flux. It began with Dr. Scott Pfister moving to the Vermont Department of Forests, Parks & Recreation last spring. Now I find myself ready to move on as well. I am in the process of retiring from state service. Leaving the state department of agriculture means, like Scott, that I am no longer able to continue to serve as a NPB officer. I regret the disruption and inconvenience this will cause President Rauscher and the Board of Directors.

The Board of Directors' meetings and conference calls held this year include:

- Post-Conference BOD Meeting – August 10, 2005 – Biloxi, Mississippi
- BOD Meeting – November 1, 2005 – Estes Park, Colorado
- BOD Conference Call – January 5, 2006
- BOD Meeting – March 23, 2006 – Hunt Valley, Maryland
- BOD Meeting – June 15, 2005 – Lansing, Michigan (*not available at this time*)
- BOD Conference Call – July 24, 2006

This Secretary/Treasurer's report has four NPB financial reports. The first is the **NPB Financial Report 1: FY 2005 Final Statement**. This statement indicates that the NPB ended the fiscal year with an account balance of \$95,770.34. It shows actual income and expenditures during the 2005 fiscal year (9/1/04-8/31/05). It also shows that we had not yet collected funds from the Safeguarding and Peer Review cooperative agreements when the fiscal year ended.

The second financial report is titled **NPB Financial Report 2: FY 2006 (Actual)**. This second statement is an actual accounting of finances through June 30, 2006. This statement indicates the NPB has four cooperative agreements this year. Three are currently in place: FY 2006 Safeguarding, FY 2006 Biotechnology Regulatory Services, and FY 2005-06 Peer Review cooperative agreements. The Peer Review is the odd ball because it encompasses two of our fiscal years (July 1, 2005 through June 30, 2006). The other cooperative agreement on this report is the Safeguarding FY 2005 (ending August 31, 2005). It is listed to note funds received that were owed to us at the end of last fiscal year.

The third financial report is titled **NPB Financial Report 3: FY 2006 (Estimate)**. This report is an estimate of what the NPB will spend through the remainder of this fiscal year. I am indicating that reimbursement requests will be made for this year's three cooperative agreements. Reimbursement of our cooperative agreement costs will increase the treasury by approximately \$38,000.00. The Biotechnology Regulatory Services Cooperative Agreement, I assume, will be renewed as we continue working on various issues. We have already been contacted by USDA APHIS PPQ to begin renewal of the

Safeguarding Cooperative Agreement. The Peer Review Cooperative Agreement has been completed and I am in the process of requesting reimbursement.

The forth financial report is titled **NPB Financial Report 4**. It is a comparison of the FY 2006 financial estimate (NPB Financial Report 3) against last year's proposed FY 2006 budget. Beside this is the proposed FY 2007 budget. Something new you will notice in this proposal is the cost for an Executive Secretary. Not being sure when this individual was going to be brought on board, expenses for him/her were placed on the proposed budget.

It was a busy year for me and made me understand the need for an Executive Secretary. I did not have time to review the Secretary/Treasurer files in detail. I noticed there were two Safeguarding Agreements in the file with different numbers and assumed that one was last year's and the second was the current year's. This assumption was incorrect. USDA notified us in late July that there is no current Safeguarding Agreement. I have been in discussion with Mike Lidsky, Daphne Reid, and Stacy Kane with USDA to get a Safeguarding Cooperative Agreement in place ASAP. We will be able to collect the \$20,000.00 we expended for safeguarding this year.

Respectively submitted:

Aurelio Posadas  
Secretary/Treasurer  
National Plant Board

# NOMINATIONS COMMITTEE REPORT

## 2005 National Plant Board

After careful and full consideration, the Nominations Committee sets forth the following slate of officers for nomination to the National Plant Board (NPB) leadership in 2005-2006:

**President:** Ken Rauscher, Michigan (CPB)

**Vice President:** Gray Haun, Tennessee (SPB)

**Secretary / Treasurer:** Aurelio Posadas, California (WPB)

With the resignation of Dr. Scott Pfister, Secretary/Treasurer, a vacancy was created in the NPB officer ranks. Standard protocol would have been for the EPB to recommend a replacement candidate for Dr. Pfister; however, the EPB was unable to field a candidate. Therefore, the next region in line for officer consideration was the WPB. The WPB selected Mr. Aurelio Posadas (California) as a replacement for Dr. Pfister. As the 2005-2006 NPB meeting was quickly approaching, there was also a need to look at nominations for the coming year. The SPB, being next in line for a candidate, recommended Mr. Gray Haun (Tennessee) as an officer candidate. Mr. Haun is also serving as SPB Chairman at this time. As Mr. Haun is currently serving as SPB Chairman, and Mr. Posadas is relatively new to the NPB, it was proposed to place Mr. Haun in as Vice Chair and Mr. Posadas as Secretary/Treasurer. After due consideration, Mr. Posadas graciously agreed to the change.

Respectfully submitted by:

**2005 Nominating Committee:**  
Richard Gaskalla, (SPB) – Chair  
Bob Waltz, (CPB)  
Gary Gibson, (EPB)  
Mitch Yergert, (WPB)

# **POLICY AND RESOLUTIONS COMMITTEE REPORT**

## **2004 National Plant Board**

The Policy and Resolutions Committee Report was presented by Gray Haun, Chair. Resolutions were approved with changes. Resolutions are included in these proceedings.

Submitted by,

Gray Haun, Chair, Tennessee  
Brad White, Washington  
Terry Bourgoin, Maine  
Gene Cross, North Carolina

## 2005 Annual Meeting Biloxi, Mississippi

### RESOLUTION NO. 1

#### APPRECIATION TO THE MISSISSIPPI DEPARTMENT OF AGRICULTURE AND COMMERCE

The National Plant Board Meeting on August 7-11, 2005, held in Biloxi, Mississippi was wonderfully arranged, hosted and organized by the Mississippi Department of Agriculture and Commerce. The Mississippi staff demonstrated true southern hospitality, was exceedingly accommodating, and professional. The meeting was remarkably successful and enjoyable for all and we had great food, fun and enjoyable spouse tours.

**Be it resolved**, that the membership of the National Plant Board at its annual meeting in Biloxi, Mississippi on August 10, 2005, sincerely thank Mike Tagert, Harry Fulton, Benny Graves and the entire planning committee including Butch Alpe, Janice Brown, Kenneth Calcote, Kristi Jones, Pixie Little, Jon Morris, Frankie Oswald, Richard Scott, Laura Vollar, Heath Steede, Keith Pouncey, Tim Lockley, and Mike Bayles for their outstanding work in the preparation and implementation of this meeting.

**Be it further resolved**, that the National Plant Board sincerely thank the meeting's sponsors including Van Zyverden, Inc., The Catfish Institute, Delta and Pine Land Company, Mississippi Nursery and Landscape Association, Dupont, BASF Corporation, Pioneer Hi-Bred International, Inc., and the Mississippi Association of Garden Clubs for their generous support of the 2005 meeting.

**Motion to Adopt:** Ken Rauscher, MI

**Seconded by:** Craig Roussel, LA

#### **DISTRIBUTION:**

Lester Spell, Commissioner of the Mississippi Department of Agriculture and Commerce  
Mike Tagert, Bureau Director of Plant Industries  
National Plant Board Sponsors

**2005 Annual Meeting  
Biloxi, Mississippi**

**RESOLUTION NO. 2**

**SOYBEAN RUST PROGRAM OVERSIGHT**

The National Plant Board commends USDA APHIS PPQ for foresight and advanced planning related to the detection of soybean rust in the United States. The agency efforts were instrumental in avoiding a crisis by developing and implementing a planned management system to deal with this important plant pathogen.

Soybean rust, *Phakopsora pachyrhizi*, was first confirmed in the United States in Louisiana in November 2004. In response to this detection, USDA facilitated the development of a federal, state, university and industry-coordinated framework for surveillance, reporting, prediction, and management of soybean rust for the 2005 growing season.

The management of soybean rust in the United States is quickly shifting from a regulatory to an extension effort with the de-listing of soybean rust as a select agent. The National Plant Board urges USDA APHIS PPQ and CSREES to continue the transition of the soybean rust program from regulatory to extension and research centered activities. Adequate regulatory protections will be maintained through the 526-permit system for shipping or moving the pathogen for research or educational purposes.

**Be it resolved**, that the National Plant Board, at its annual meeting held in Biloxi, Mississippi on August 10, 2005, requests that USDA move the soybean rust program from APHIS PPQ to CSREES and its focus be shifted away from regulatory activities to extension and research centered activities by the 2006 growing season.

**Motion to adopt:** Ken Rauscher, MI  
**Seconded by:** Shashank Nilakhe, TX

**DISTRIBUTION:**

**2005 Annual Meeting  
Biloxi, Mississippi**

**RESOLUTION NO. 3**

**UNITED STATES DEPARTMENT OF HOMELAND SECURITY  
CUSTOMS AND BORDER PROTECTION  
VACANT POSITIONS AT PORTS OF ENTRY**

United States ports of entry are considered to be the first line of protection for the nation's agricultural and environmental resources. Following the terrorist attacks of September 11, 2001, the Homeland Security Act of 2002 established the Department of Homeland Security (DHS) and charged it with coordinating U.S. efforts to protect against terror activities, including agroterrorism. Approximately 2,700 agricultural inspectors at the ports, support personnel, and AQI user fees were transferred from USDA to DHS in 2003. To assist in this transition and to encourage joint agency cooperation the National Plant Board, along with regional Plant Boards, has aggressively encouraged the participation of Custom and Border Protection (CBP) in both national and regional plant board meetings.

In March 2005, the U. S. Government Accountability Office (GAO) published a report to Congress on the work Homeland Security is doing to protect agriculture from a terrorist attack. Although the main emphasis of the report was on agroterrorism, the main threat posed to plant resources is the inadvertent introduction of plant pests on plant products entering the U.S. in commercial freight shipments or in personal shipments that are hand-carried or mailed. Unfortunately, the number of newly introduced plant pests continues to grow at a historically high rate. The GAO report noted that since the transfer of agricultural inspectors from USDA to DHS-Customs and Border Protection in 2003, there have been fewer inspections of agricultural products at the nation's ports of entry. Also, when the transfer was made, there were 500 vacant agricultural inspector positions, and at the time of the GAO report there were approximately 800 vacancies nationwide. Although progress has been made in filling these positions, the vacant positions and resulting decrease in inspections make U.S. plant resources more vulnerable to the introduction of exotic plant pests, as well as acts of agroterrorism.

**Be it resolved**, that the National Plant Board, at its annual meeting held in Biloxi, Mississippi on August 10, 2005, requests that DHS-Customs and Border Protection continue their concerted efforts to fill vacant agricultural inspector positions, that USDA APHIS PPQ and DHS determine the reasons for declining pest interceptions, and that DHS quickly increase inspections to appropriate levels. Further, the National Plant Board appreciates and encourages Customs and Border Protection officials' participation in both the regional and national meetings of the Plant Board and the Plant Board stands ready to participate in Customs and Border Protection meetings.

**2005 Annual Meeting  
Biloxi, Mississippi**

**RESOLUTION NO. 4**

**WOOD BORING PESTS: ASIAN LONG-HORNED BEETLE  
AND EMERALD ASH BORER**

The Asian long-horned beetle, *Anoplophora glabripennis*, (ALB) was first discovered in the Eastern region in 1996 in New York City and in Chicago in 1998. In 2002, it was confirmed in Jersey City, New Jersey. A second New Jersey infestation was detected in 2004. Quarantines were established, and costly eradication programs are ongoing.

Emerald ash borer, *Agilus planipennis* (EAB), was identified in North America in June 2002. Since its introduction, this exotic pest has killed millions of ash trees in the United States and Canada and threatens the \$280 billion ash resources in North America. EAB and its associated quarantines have cost the nursery and forest products industries and native urban forests millions of dollars, created public safety and financial distress to cities in the infested areas, and overloaded the safeguarding resources of state and federal agencies that attempt to control this pest. To date, EAB generally infests twenty (20) counties in southeast Michigan, portions of six (6) counties in Ohio, portions of two (2) counties in Indiana, and Essex County and the municipality of Chatham-Kent in southern Ontario, Canada. Additionally, outlying infestations have been found in several locations in Michigan, Ohio, and Indiana, as well as regulatory incidents in Maryland and Virginia.

Since the introduction of ALB and EAB, significant progress has been made in developing and implementing the infrastructure to address these pests. Survey and regulatory staff have been hired and data and methods management have been implemented. Eradication efforts are ongoing in New York, Chicago and New Jersey for ALB, and significant survey efforts are being conducted in Connecticut, Vermont, Pennsylvania and Delaware. Eradication efforts are ongoing in Michigan, Ohio, and Indiana for EAB. In Maryland and Virginia, EAB program efforts will continue for the mandated three fiscal years to ensure eradication.

Projected funding for the EAB and ALB programs for FY 2006 remains uncertain. The federal appropriation for EAB and ALB management was less than required and the

Office of Management and Budget has not released the full funding requested by the Secretary of Agriculture. Additionally, the Office of Management and Budget has indicated that CCC funds would no longer be available for management of these pests. These actions have left these critical programs under-funded. Unless decisive action is taken to fully fund the ALB and EAB programs, through the combined efforts of the U.S. Congress and the Office of Management and Budget, these pests will expand rapidly to new areas, creating economic losses of great magnitude to affected cities, towns, and industries resulting in serious ecological damage through the elimination of maple and ash in North America.

**Be it resolved**, that the National Plant Board, at its annual meeting in Biloxi, Mississippi on August 10, 2005, requests that U.S. Congress and the Office of Management and Budget provide full funding as identified by USDA APHIS PPQ for EAB and ALB containment and eradication.

**Be it further resolved**, that this funding is made available immediately in order to facilitate the implementation of Science Panel and other recommendations, and that adequate funding continues until Asian Longhorned Beetle is eradicated and Emerald Ash Borer is contained and ultimately eradicated.

**2005 Annual Meeting  
Biloxi, Mississippi**

**RESOLUTION NO. 5**

**EMERGING PLANT PESTS AND PEST DETECTION**

The ability of USDA-APHIS and state cooperators to safeguard American plant resources is hampered by their inability to secure adequate funding to detect, delimit, and eradicate exotic plant pests. Major control initiatives directed at Asian long-horned beetle, emerald ash borer, citrus canker, and *Phytophthora ramorum* blight are ongoing. All of these initiatives are funded with the emerging plant pests budget line item. For eradication efforts to be successful, full, reliable and continuous funding is imperative to U.S. citizens and the partner agencies serving the public.

Recent increases in federal support for enhanced domestic surveillance through Homeland Security funds allocation and the Pest Detection Initiative have focused on infrastructure development. Expanding world trade and the threat of bio-terrorism have increased the risk of additional destructive insects, diseases, nematodes and weeds being introduced into the United States. Improving pest survey detection and response capabilities to meet the increasing threats posed by new pest introductions require funding at a level of \$100,000,000.

**Be it resolved**, that the National Plant Board, at its annual meeting held in Biloxi, Mississippi on August 10, 2005, urges that USDA seek through U. S. Congress to increase the appropriation for the Pest Detection line item to \$100 million for the early detection of new pests and timely emergency response.

**Be It Further Resolved**, that the National Plant Board urges that Congress appropriate at least \$175 million to fund USDA APHIS PPQ's Emerging Plant Pests line item in order to complement Commodity Credit Corporation's (CCC) emergency funding.

## **2005 Annual Meeting Biloxi, Mississippi**

### **RESOLUTION NO. 6**

#### ***Phytophthora ramorum* (Sudden Oak Death)**

*Phytophthora ramorum*, the casual agent of the disease commonly called sudden oak death, ramorum blight and ramorum dieback, has been killing trees and other hosts in the coastal counties of California since the mid-1990's. *P. ramorum* causes fatal bark cankers in tanoak, coast live oak, and California black oak. It can also cause leaf blight on species of camellia, rhododendron and California bay laurel, and can spread rapidly in an area to many different hosts. Since the full host range for this disease has not yet been delineated, regulatory safeguards are needed for the interstate and international movement of plant material, in order to eliminate or minimize the potential for spread of this pathogen. It is fully anticipated this disease has the potential to be established throughout the United States, with primary concern for the Eastern and Southern forests, where it is expected to adversely impact the ecosystem balance and economy of affected areas. In addition to forest concerns, foreign and domestic nursery stock and lumber markets are of prime concern. Based on the present USDA, APHIS, PPQ list of hosts and plants associated with *P. ramorum*, there are 68 proven hosts and associated hosts, with additional species being identified regularly.

The interstate and international movement of infected plants continues to be a major pathway for the movement of *P. ramorum* to uninfested areas in the United States. Detected infestations must be eradicated in order to protect the U.S. nursery and forestry products industries and ecosystems from this disease. The public would be greatly affected by the loss of shade trees and ornamental plants in natural areas as well as landscapes affected by this pathogen.

Based on these potential pathways, an interim rule was published by USDA APHIS PPQ on February 14, 2002 to prevent the spread of sudden oak death from twelve infested counties in California and from an area under eradication in Oregon. An Emergency Federal Order dated December 21, 2004 was issued to regulate certain nurseries and plants to prevent the pathogen's spread via nursery plant movement. This order addresses the discovery of *P. ramorum* in nurseries in California, Oregon, and Washington that are outside the quarantined areas. Provisions were also included

for nurseries in regulated areas that were not covered by the previous regulations, which now require inspection and certification of freedom from *Phytophthora ramorum*.

There is concern that there are plants within the nursery trade that have been repeatedly implicated in the detection of *P. ramorum* in interstate plant movement from known infested west coast states. Additional comprehensive regulatory measures may be needed on these genera/species.

**RESOLVED**, that the National Plant Board, at its annual meeting in Biloxi, Mississippi on August 10<sup>th</sup>, 2005 urges the Secretary of Agriculture to ensure adequate funding is available for USDA APHIS PPQ to implement the national survey for *P. ramorum* and to conduct critical follow-up activities including trace forwards, testing, the development of new test methodologies, destruction of infected plants and eradication of *P. ramorum*.

**BE IT FURTHER RESOLVED**, The National Plant Board, as a cooperating partner in the program, has endorsed the formation of the *Phytophthora ramorum* NPB/PPQ working group. The National Plant Board strongly urges that the USDA APHIS PPQ work aggressively and cooperatively with this group to frame, clarify and track critical policy, scientific, and technical issues relating to the movement of high-risk nursery stock in interstate trade. This cooperative partnership is needed to ensure federal quarantine measures are based on sound science and in accordance with the NPB Principles of Plant Quarantine.

**BE IT FURTHER RESOLVED**, that the National Plant Board urges its member states to follow established USDA APHIS PPQ standard sampling and laboratory protocols and that USDA APHIS PPQ fast track approval of laboratories capable of completing *P. ramorum* testing.

**BE IT FURTHER RESOLVED**, that the National Plant Board urges USDA APHIS PPQ to complete and implement a *P. ramorum* introduction risk assessment for plant propagative material entering the U.S. for both the A1 and A2 mating types.

**Motion to Adopt:** Craig Roussel, LA  
**Seconded by:** Mike Cooper, ID

**DISTRIBUTION:**

Mike Johanns, Secretary, USDA  
Bill Hawks, Under Secretary, USDA  
Dr. Richard Dunkle, Deputy Administrator, USDA APHIS PPQ  
Rick Kirchhoff, CEO, NASDA  
Gus Douglass, Chairman, Animal and Plant Industries Committee, NASDA  
Craig Regelbrugge, Senior Director of Government Relations, ANLA  
National Plant Board President  
National Plant Board, Board of Directors

**2005 Annual Meeting  
Biloxi, Mississippi**

**RESOLUTION NO. 7**

**NATIONAL HONEYBEE SURVEY**

Currently, U.S. beekeepers find certification standards for exporting honeybees to other countries severely restrictive. It is virtually impossible to certify U.S. honeybees apparently free of certain pests not known to occur in the U.S. since no national survey/certification program exists. Necessary surveys include, but are not limited to pests such as *Tropilaelaps clareae* and other pests/diseases not known to occur in the U.S. Certification/surveys are needed to permit U.S. shipments to other countries not known to have such pests and also to prevent shipments from countries known to have them once it is proven they do not exist in the U.S.

Additionally, the Africanized honeybee (*Apis mellifera scutellata*) (AHB), poses a serious threat to the public safety and the viability of the beekeeping industry and the pollination of crops in the U.S. By May 2005, 59 of 653 suspicious swarms trapped in Florida, and 5 of 39 swarms caught near the Port of Mobile in 2004, have been identified as being Africanized to varying degrees using approved diagnostic tests. This problem is expected to be compounded as South and Central American countries will likely request permits to ship honeybees to the U.S. which will be genetically Africanized. The USDA, APHIS, PPQ is now allowing the importation of honeybee queens and packaged bees from Australia and New Zealand under free trade negotiations.

**RESOLVED**, The National Plant Board, at its annual meeting held in Biloxi, Mississippi on August 10<sup>th</sup>, 2005 hereby urges the USDA APHIS PPQ and/or the USDA APHIS VS initiate and fund a national survey program to allow U.S. shipments of honeybee queens and packages to foreign countries;

**BE IT FURTHER RESOLVED**, The National Plant Board, AIA and USDA APHIS PPQ/CSREES work cooperatively to develop and implement a uniform AHB Action Plan for the Southern states including Best Management Practices (BMP's), outreach and other activities.

**Motion:** Harry Fulton, MS

**Seconded by:** Richard Gaskalla, FL

**2005 Annual Meeting  
Biloxi, Mississippi**

**RESOLUTION NO. 8**

**NATIONAL SEED HEALTH SYSTEM ACCREDITATION**

The USDA APHIS PPQ has promulgated rules providing for the accreditation of private laboratories and inspection entities to perform seed borne disease diagnostics and seed field inspections. These rules require costly documentation, training, and accreditation costs. However, these rules do not provide for or require the accreditation of state governmental laboratories. The USDA APHIS PPQ now is seeking to require accreditation of state governmental laboratories and state seed inspection activities. The National Plant Board is presently on record as opposing the mandatory National Seed Health System accreditation of state governmental laboratories and state seed field inspection activities.

**RESOLVED**, The National Plant Board, at its annual meeting held in Biloxi, Mississippi on August 10<sup>th</sup>, 2005 hereby opposes any USDA APHIS PPQ requirements for mandatory accreditation of state governmental laboratories and state seed field inspection activities.

**Motion:** Shashank Nilakhe

**National Plant Board  
Board of Directors' Meeting  
August 10, 2005  
Biloxi, Mississippi**

**Draft**

President Ken Rauscher (MI) called the meeting to order at 4:55p.m. Vice President Gray Haun (TN), Secretary/Treasurer Aurelio Posadas (CA), Past President B. Dickerson (NC), and the following Board members were present:

T. Bourgoin, ME  
D. Hilburn, OR  
C. Schulze, NJ

M. Brown, MO  
B. Mungari, NY  
V. Woehler, NE

M. Cooper, ID  
S. Nilakhe, TX

Agenda Item:

1. **Approval of BOD Minutes of January 6 & 7, 2005 and May 5, 2005:** The minutes were presented to the BOD. B. Dickerson moved to adopt them and M. Brown seconded the motion, which passed unanimously. The August 7, 2005 minutes were also presented to the BOD for approval. B. Dickerson moved to adopt them and M. Brown seconded the motion. Missing names and corresponding states were provided to A. Posadas to make the *P. ramorum* working group complete. The motion passed unanimously.
2. **2006 Proposed Budget:** The proposed 2006 budget was presented to the BOD. S. Nilakhe moved to adopt them and C. Schulze seconded the motion. The motion passed unanimously. C. Schulze brought up a dues issue. The EPB is having a problem with two states paying their dues. Discussion occurred and it was decided that Schulze would write them a letter trying to convince them to pay. M. Brown added that the CPB has the same problem.
3. **Upcoming Meetings:**
  - NASDA: September 16-21, 2005
  - NA PPO: October 17-21, 2005
  - Potato Meeting: October 5-6, 2005
  - NPB/PPQ Meetings: November 14-18, 2005
  - March specific date: TBD
4. **EAB Research Forum:** Coming up September 26-29, 2005, in Pittsburgh, Pennsylvania.
5. **Regional Plant Board Meetings:** Regional Plant Board meetings were requested. They are as follows:

EPB –April 3-6	SPB – third week of April
CPB – Feb 6-9	WPB – was planned for April 17-20. But agreed to move to a later date.
6. **BRS: Working Group Input Process:** The BOD discussed the BRS working group and what is expected from the NPB. A conference call will be scheduled for next week. Call-in information will be provided.
7. **PPQ: Cooperative Agreement:** The Safeguarding Cooperative Agreement, due to end August 31, 2005, was discussed as to whether it would continue. We need to talk to PPQ.

8. **SOD: Working Group Plans:** The SOD working group was discussed. J. Jones asked that a NPB working group for SOD be established to aid him in dealing with the complicated interstate issues.
9. **PSB: Quantitative PRA:** This issue was discussed by the BOD and it was agreed that B. Dickerson would draft a letter to be sent to Vermont, Mississippi, and perhaps other states.
10. **Seed Potato MOU:** The BOD discussed this issue and a conference call is being scheduled in the next week or two.
11. **Admin. Assistance:** The BOD discussed the need for assistance for the NPB President and it was agreed that we need to draft up some duties this individual would assume. It was noted that Charlie Coffman might be interested in this position.
12. **Peer Review – PRA (CPHST) Bill:** B. Dickerson informed the BOD that these two committees are ready to go. Individuals have been named and contacted. There is a separate Peer Review Cooperative Agreement. However, the CPHST review will fall under the Safeguarding Cooperative Agreement.
13. **Thursday Agenda – 8:00 a.m. Items:** PSB and Hasta Virus as possible agenda items were discussed. Also discussed was the NPB paying for NPB members' per diem to stay for Thursday. Some members were not staying due to lack of state funds for their per diem. It was agreed that any NPB members staying for Thursday would be allowed to submit travel vouchers for per diem.
14. **Agroterrorism Issue:** The BOD discussed this issue.
15. **Website committee:** Gray Haun agreed to chair this committee.
16. **Committee assignments:** President Rauscher agreed to make committee assignments to replace those who have retired.

Meeting was adjourned at 6:00 p.m.

## **ACKNOWLEDGEMENTS**

Members of the National Plant Board sincerely and wholeheartedly appreciate the planning, long hours of preparation, and hosting performed by the Mississippi State Department of Agriculture and Commerce.

Special thanks are extended to: Butch Alpe, Janice Brown, Kenneth Calcote, Harry Fulton, Benny Graves, Kristi Jones, Pixie Little, Jon Morris, Frankie Oswald, Richard Scott, Mike Taggart, Laura Vallour, Mike Bayles, Heath Steede, Keith Pouncey, and Tim Lockey.

Aurelio Posadas
