

Main Topic	Export Certification Workgroup – Meeting
Date:	February 23, 2012
Time	2:30pm EST
Facilitator:	Michon Oubichon
Scribe	Michon Oubichon
Location:	Conference Call: 888-858-2144, code: 5268033

MEMBERS:

Name	Contact Information	Meeting Participant
Mike Bryan, Central Plant Board Representative	bryanm@michigan.gov	X
Laney Campbell, Eastern Region Program Manager	laney.e.campbell@aphis.usda.gov	X
Julie Clapp, Export Specialist, Export Database	julie.l.clapp@aphis.usda.gov	X
Mike Cooper, National and Western Plant Board Representative	mike.cooper@agri.idaho.gov	
Emilee Douglas, Idaho Dept of Agriculture	EDouglas@agri.idaho.gov	X
Christian Dellis, Deputy Director PIM	christian.b.dellis@aphis.usda.gov	
Carl Harper, Southern Plant Board Representative	carl.harper@uky.edu	X
Marilyn Kinoshita, Tulare County Agricultural Commissioner, CACASA Representative	giacono@co.tulare.ca.us mkinoshi@co.tulare.ca.us	X
Dennis Martin, Export Specialist	dennis.w.martin@aphis.usda.gov	X
Marcus McElvaine, Senior Export Specialist,	marcus.mcelvaine@aphis.usda.gov	X
Michon Oubichon, Senior Export Specialist,	michon.m.oubichon@aphis.usda.gov	X
Michael Perry, Export Specialist, PCIT,	michael.j.perry@aphis.usda.gov	X
Sarah Scally, Eastern Plant Board Representative	sarah.h.scally@maine.gov	X
Craig Southwick, Western Region Program Manager,	craig.southwick@aphis.usda.gov	
Terrance Wells, Export Specialist,	terrance.d.wells@aphis.usda.gov	X
Maggie Smither, Export Specialist	margaret.r.smither@aphis.usda.gov	X

Agenda:

No.	Topic	Responsible
1.	<p>PCIT/PExD</p> <p>1. PExD Enhancements</p> <p>Issue: Messages – Can all of the information be listed on one page so the user does not have to look at a specific country to see if Important Notes are posted.</p> <ul style="list-style-type: none"> ✚ Action Item: ES will look into a function that would allow the Important Notes which appear on the country level to be automatically added to the Messages section on the PExD. Important Notes appear at the country level in PExD. Messages appear on the PExD home screen. <p>2. PExD recent summary changes report</p> <p>Issue: Can the recent updates feature that was in EXCERPT be instituted into PExD.</p> <p>Discussion: ES offered the recent summary changes report, which will list all of the changes that occur in PExD over a 7 day period in an EXCEL sheet. The main issue is that it will highlight all of the system changes which is a large report and will take time to go through to identify change to a particular commodity in a summary.</p> <ul style="list-style-type: none"> ✚ Action Item: ECW members will review the summary changes report and provide comments on whether the report would be useful for the field. (Please see attached) <p>3. Common name search on the PExD commodity list</p> <p>The common name search cannot be added to the PExD commodity list. The requirements in PExD are entered by botanical name and are not associated with common names. In PCIT the botanical name is directly associated with a common name and that information can be listed on the PC.</p> <p>4. General Comments – PExD</p> <p>Please send all comments or issues with a particular country summary in PExD through the line of communication that is listed in the XPM or through the ES email: ppgexportservices@aphis.usda.gov.</p> <p>Also, Australia, New Zealand, Taiwan and Canada have not been completely transferred into PExD. ACO's should review the Important</p>	<p>Marilyn Kinoshita</p> <p>Emilee Douglas</p> <p>Michael Perry</p> <p>Dennis Martin</p> <p>Michon Oubichon</p> <p>Julie Clapp</p> <p>Terrance Wells</p>

No.	Topic	Responsible
	<p>Notes section at the top of the country summary which will indicate that the summary is not complete.</p> <p>Please Note: The EU is also undergoing a major overhaul in PExD.</p> <p>5. Grain listed in the Mexico Summary – Updated – PC Required</p> <p>The summary has been updated to reflect the correct requirements for grain.</p> <p>6. PCIT - Signature Images (Original Certificate Print Authorization)</p> <p>Please encourage ACO's to sign up for signature images.</p> <ul style="list-style-type: none"> ✚ Action Item: ES has posted the signature image sign-up sheet on the XPM website under Appendix D- PCIT. <p>http://www.aphis.usda.gov/import_export/plants/manuals/domestic/downloads/PCIT_signature_image_form.pdf</p> <p>7. Upcoming Release – March 3rd. (Please see insert)</p> <p>8. PPQ Form 572 – Application for Phytosanitary Certificate</p> <p>Issue: Applicants are not editing the information in the “Certified Origin” box in the step 3 of the application process. The current default is set to USA. Is there a way to make the box more visible to applicants, so they will fill-in more specific information. The information is important for the ACO to determine both international and interstate requirements.</p> <ul style="list-style-type: none"> ✚ Action Item: The ECW will discuss ways to work with exporters to make the “Certified Origin” box more visible and ES will discuss the outcomes of the meeting with the developers. 	
3.	<p>Industry Certification Expansion Policy Proposal – HT/KD Low Risk Lumber Shipments – Update</p> <p>ES/WR/ER is moving forward with the proposal and working with industry to develop an inspection certificate to assist ACO's with certification.</p>	Michon Oubichon

No.	Topic	Responsible
4.	Open Discussion Next Meeting April 26, 2012	

Items for PCIT 5.3

SCR's:

SCR 37: Expand db fields for common and bot names to 75 and 50 respectively.

SCR 274: Allow an applicant to request a Replacement through the system to change an existing certificate

SCR 389: Convert the Florida State Certificate to Cognos

SCR 395: Add code so VS users can log into PCIT and get redirected to the VS website.

-SCR 400: Update documentation on the screen and in the help for the PCIT Certificate Viewer.

-SCR 401: Update release notes to provide a release date.

Report SCR's:

SCR 289: Update the Commodity by Country rpt - show the number of phytos issued for the selected commodity and country

SCR 321: New Report - Certificates by Inspector/ACO

SCR 360: Update the Duty Station Data Report – Limit to one month selection, enable multiple DS selection

SCR 377: Add current balance to the Manifest report

-SCR 378 - Update State/County fee collection report to not show zero quantities.

-SCR 385 - Add breakdown of fees in debit txn report.

Other Activities:

Migration from MyFaces to Richfaces

XML/Excel report updates as necessary

Defects:

Defect 1489: Charges can be doubled in the state_county_charge detail records.

-Defect 1492: Commodity by Country report queries are running for too long and need to be tuned.

Proposed Items for PCIT 5.4

SCR's:

SCR 316: Update all federal payment screens to show a fee dropdown rather than the change fee button.

SCR 331: CA State Fee

SCR 376: Update the IP Batch Processing (5 of 5) to display a fee dropdown when fees and rates are charged and a way to apply to all certificates listed.

SCR 386: Add the Certificate number to the top of the Change State/County Fees screen.

SCR 390: Update the State/County Fees Collection report by enabling a date range selection.

SCR 391: Add a comment block (~200 characters) on the Change State/County Fees Screen and include the comment on fee reports

SCR 402: Update S/C Fee Collection Report selection criteria - reverse order of Issue date dropdown

Report SCR's:

SCR 404: Update the Monthly Export Certificates report, State/County options to

- a. USDA Administrative Fee Issued Outside of PCIT
- b. USDA Administrative Fee Issued Within PCIT
- c. California Administrative Fee (**not sure that this belongs in this report – its focus is federal fees collected**)
- d. No Administrative Fee

SCR 405: Update the State/County Calculated Fee report for California; break down county and only include California Administrative Fee and No Administrative Fee data.

Other Activities:

Defects:

DATE

Items for PExD 1.7

SCR's:

SCR 132: Update the Treatment display format when there are no treatment details.

SCR 135: Enlarge the end users' commodity search results box on the Commodity screen to minimize scrolling.

SCR 140: Update 'Notes to PIM Staff' format to individual notes of up to 4000 characters each and enable ES to link note(s) to CS.

SCR 149: Increase the size of General Requirements from 2000 to 4000 characters - make all 2K text fields 4k.

SCR 150: In Add/Update Commodity Summary enable ES to select multiple states then select counties.

SCR 151: Move Standard Documentation Requirements to the bottom of the Add/Update Commodity Summary screen.

SCR 157: Allow PExD user to use existing summary as a template to create a new summary.

SCR 158: Allow the PExD Admin user to add comment code whenever selecting AND/OR New Section ADs.

SCR 161: Increase the size for Additional Declaration.

SCR 162: New report - Create a report that lists all the commodities (with part) that are in a country's Commodity Summary.

SCR 164: Add a last update date on the summary after the viewer selects the country on the View Country Information screen.

SCR 165: Increase the user message field needs to 4000 characters.

SCR 166: When adding General Requirements prompt ES if there is other Commodity Summary text that could be impacted.

SCR 169: Support Documents common repository, allowing mass updates.

SCR 172: Add a note to officials that they need to sign into PCIT to see all PExD data available to internal users.

SCR 175: Enable viewing users to return to the previously opened CS after viewing other Country specific data.

SCR 176: Add facility to update the cache for a country's commodity summary records.

SCR 177: When the user searches for a specific genus species and it does not exist, return the genus sp. if it exists.

SCR 178: Add a last updated date for each of the tabs in General Requirements.

SCR 180: Enable documents to be added to individual notes to PIM.

Items for PExD 1.7

--SCR 181: Full Exception list should be accessible on View Commodity Summary.

--SCR 182: Add Kosovo Flag to PExD application.

--SCR 183: Add South Sudan flag to PExD application.

Defects:

Defect 46: Update the wording for the Supporting Documents link on the Update Country Information menu screen.

Defect 48: Replacement Items issue on future commodity summary.
